

i ABOUT

The pandemic and lockdown situation in the school sector resulted in an unplanned and rapid move to online learning with no digital training, insufficient digital skills, and little preparation of many teachers.

The Digital Mentor Power is an Erasmus+ project aimed at improving the learning process in EU schools by enhancing the digital skills and competencies of European Teachers through the development of the Digital Mentor Power Platform.

OBJECTIVES

Identifying Digital Mentors

Identifying Teachers who need digital training (Pedagogical Experts).

Reach a large amount of school Teachers across the "Digital Skills Divide"

Build a rich database of digital tools and pedagogical advice

WHAT IS A DIGITAL MENTOR?

Digital Mentors are teachers who are skilled in a range of digital skills and different digital tools. The digital Mentors will help experienced teachers to reach a proficient level of digital competence through mentorship training.

WHAT IS A PEDAGOGICAL EXPERT?

Pedagogical Experts are experienced teachers who need digital training. These teachers will support their often-unexperienced colleagues with resources and advice regarding pedagogical methods.

"The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein."

THE DIGITAL MENTOR POWER PLATFORM

The DMP platform will be an innovative tool that will enable Pedagogical Experts (PE) to learn technological competences and find new ways to tailor technology to their specific subject by exchanging knowledge in a "peer learning" concept with Digital Mentors (DM) who are skilled in a range of digital tools.

The DMP Platform features:

Database of digital tools and pedagogical advice

Video Conference function

3 login options: DM, PE, and IT specialists.

CONNECTION TO EU TOOLS

The project will link to the following EU tools:

eTwinning and School Education Gateway to reach out EU teachers.

SELFIE and DigCompEdu, to test current digital competences and as a base for the platform-

Europass to let teachers update their CV with the acquires skills.
